

REMEMBERING DEPUTY ROBERT PARIS

Mrs. BOXER. Madam President, I ask my colleagues to join me in honoring the memory of Deputy Robert "Bob" Paris, a dedicated public servant in the Stanislaus County Sheriff's Office and a kind and loyal colleague, friend, and family man. On the morning of April 12, 2012, Deputy Paris was tragically killed in the line of duty while serving an eviction notice in north Modesto.

A graduate of Tracy High School and the Ray Simon Criminal Justice Training Center in Modesto, Bob Paris joined the Stanislaus Sheriff's Department as a reserve deputy in May 1996 and became a full-time employee in 1998. During his tenure with the department, he served the community as a court bailiff, a patrol deputy, and as a member of the sheriff's water enforcement team. He was also the department's first-aid and CPR instructor at the sheriff's academy.

For the past 16 years, Deputy Paris dutifully served the citizens and communities of Stanislaus County with great pride, integrity, and valor. His devotion to helping others, along with his passion for law enforcement, helped him become a respected member of the Stanislaus County Sheriff's Department.

Deputy Paris served Stanislaus County with honor and bravery, and I send my heartfelt sympathies to his family, friends, and colleagues.

RECOGNIZING THE WILLIAM J. MOTTO BIOSCIENCE SCHOLARSHIP

Mr. PORTMAN. Madam President, today I wish to recognize the establishment of the William J. Motto Annual Bioscience Scholarship at Cincinnati State Technical and Community College.

To commemorate the 35th anniversary of its founding, Meridian Bioscience, Inc., is funding a \$5,000 annual scholarship to support a deserving student each year at Cincinnati State.

The scholarship is named in honor of Meridian bioscience executive chairman and Founder, William "Bill" Motto, who has a passion for creating opportunities for hard-working individuals who wish to improve their lives and our community.

Bill Motto founded Meridian in 1977 in the basement of his home, not far from the company's headquarters in Newtown, just outside of Cincinnati. Today, Meridian is a fully integrated life science company that manufactures, markets, and distributes a broad range of diagnostic test kits, purified reagents, and biopharmaceutical enabling technologies. In addition to products used in the early diagnosis and treatment of common medical conditions, Meridian develops and manufactures a variety of biological and non-biological materials used in proficiency testing programs.

The scholarship will be geared toward students majoring in biosciences, as the college prepares to open a new bioscience lab in its Health Professions Building. In addition, the college has expanded its curriculum to help students become lab technicians or to pursue bachelor's or other specialized degrees.
